NOTES OF INTEREST OF BUSY KINSELLA

Mr. Ivan Sheppie of Three Hills was at the Mark home over the weekend, and reports crops as very good in his district.

Mr. Lee was a city visitor Friday.

Mr. and Mrs. E. C. Williams were in Edmonton on Friday on business.

Miss Mabel Garvie was a visitor in the city last Tuesday.

The W. I. met on Saturday in Lee's Hall and among other business made plans for the annual party for the children to be held the last Saturday of October.

Miss Vimy Murray is home again after undergoing an operation for appendicitis at the Viking hospital.

Threshing is again under way in this district and if the weather continues good another week will see the grain all threshed.

Mr. and Mrs. J. Bachell were visiting at Sops, Beach, a few days the first of the week.

Mr. and Mrs. J. F. Murray left last Saturday for Sops, Ont., to be gone a month. They will visit Mrs. Murray's father and mother, Mr. and Mrs. Horner, and other relatives there.

The Ladies' Aid will meet Thursday the 10th, at the church, with Mrs. Carpenter as hostess.

Obituary

LAURA GUILTNER
On Sunday, September 29th, the Irma district was saddened by the news of the death of Laura, beloved wife of Lionel Gultner, at her home near Irma.

Mrs. Gultner had been quite ill for several months and had undergone an operation in the Walnwright hospital some time ago which for a time seemed to relieve her suffering. This relief, however, was only temporary and in spite of everything that could be done she passed on to her eternal rest in the early hours of Sunday.

Mrs. Gultner will be greatly missed by her husband and family to whom she was very devoted, giving ungrudgingly of her time and strength.

The deceased was born at McCook, Nebraska, in the year 1891 and was married in 1906, coming to Irma the following year, where she and her husband have resided ever since. Twelve children were born to this union, eleven of whom are living. Their names in the order of their ages are as follows: Lucille (Mrs. M. Moon), Vancouver, B.C.; Murray, Stanley, Robert, Harvey, Doris, May, James, Marjorie, Jennie and Norma, all at home.

The funeral service was held in the United church on Monday afternoon, September 30th, Rev. E. F. Kemp officiating. The funeral was largely attended by friends and neighbors who assembled to pay their last respects. The many beautiful floral tributes were donated by the following: The Family; Mr. and Mrs. N. S. Johnson; Mr. and Mrs. W. M. Friel; Mr. and Mrs. Ross McFarland; Mr. and Mrs. A. Peterson; Mrs. J. C. Knudsen; Mr. and Mrs. P. E. Jones; Mr. and Mrs. J. Fletcher; Irma Ladies Aid and W.M.S.; Jim and Dad Hedley; Mrs. M. Arnold and James A. Hedley.

The sympathy of the entire community goes out to those bereaved.

STRESSES VALUE NEW GAS FIELD CENTRAL ZONE

"One of the most important natural gas fields in Canada" is lying in the St. Paul, Vermilion and Saddle Lake districts, according to Dr. G. H. Crickmay, dominion government geologist, who reached Edmonton Saturday after spending the summer surveying that area.

"The recent success in gas well drilling at Lloydminster inspired one survey this summer," said Dr. Crickmay. "The areas that we looked at are potential producers and should be drilled, capped and sold at a profit. This area undoubtedly will be one of the most important gas fields of the dominion."

He found no indications of oil but he was not prepared to say that oil couldn't be found within the limits of the 10,000 square miles that he surveyed with his five geological surveys. He believes that the district will get primary interest from industry on account of the natural gas. "It was money well spent," said Dr. Crickmay, defending expenditures on the government surveys and pointing out that a survey can be financed for \$20,000 whereas an unproductive well could easily cost up \$20,000.

INFORMATION FOR FARMERS RE THE MINIMUM WHEAT PRICE BY BOARD

The Wheat Board's fixed minimum price is fixed for the grower only. It is not a pegged price. The Canadian government through the medium of the Wheat Board undertakes to buy any wheat offered it at this fixed price. If they are unable to dispose of the wheat at the price paid the government pays the difference. But if they can sell the wheat at a higher price than they paid, the difference will be paid to the farmers who sold their wheat to the Board as an additional payment.

A farmer may deliver part, all or none of his wheat to the Wheat Board, just as he pleases.

The Winnipeg Grain Exchange is still the open market as before. This open market may fluctuate as it always has and it may be higher or lower than the Wheat Board's fixed price.

This open market price is based on the export value of wheat, that is, it is the price that foreign buyers are prepared to pay for Canadian wheat. If foreign buyers are prepared to pay more for Canadian wheat, the open market price will be higher than the

fixed price, which also will allow the Board to dispose of its holdings at a profit. However, if buyers will not pay up to the fixed price for wheat, then the open market price will be less than the fixed price. Then the Wheat Board will not be able to sell at a profit, but they will pay this fixed price at least, regardless of the export value.

The Terror of Paralysis

Infantile paralysis is one of the worst scourges of the list that afflict mankind.

Ever so often the disease becomes pandemic and leaves in its wake only too many dead and crippled children and youths.

It is caused by one branch of the tiny forms of life known as microbes. Scientists have never seen the little terror—so small it is invisible to the highest powered microscope.

But they know swarms of these deadly germs enter humans by way of the mouth and nose and immediately head for the brain. Then they enter the spinal column, attacking the nerve centre controlling the muscles.

So a child, feverishly ill, starts to tremble, his parents by losing control of certain muscles.

Paralysis sets in and the child is faced with death or a crippled condition for life.

The march of science will eventually eradicate infantile paralysis as it has almost succeeded in doing with smallpox and other diseases. But that is still in the future insofar as poliomyelitis is concerned.

Motor Association Warns Drivers of Carbon Monoxide

At this season of the year and later, motorists are urged by the Alberta Motor Association to give great attention to car driving precautions. Not only should the driver be careful to avoid accidents from skidding or other causes but he also should be careful of the deadly carbon monoxide fumes that lurk in some cars.

Each year, often beginning with the fall, several hundred people in Canada and the United States lose their lives from carbon monoxide in their cars. Alberta is on the list which shows the heavy toll all over this country annually.

Deaths usually occur as the result of a car being operated within a garage with closed doors, often unintentionally.

When a test was held recently it was found that approximately one-half of the vehicles contained varying quantities of carbon monoxide. This should be a warning to all, as the presence of any carbon monoxide in the car is clear proof that a defective condition exists.

The Alberta Motor Association urges that car conditions should be checked in order to eliminate such hazards as carbon monoxide. There should be a periodical examination of the entire exhaust system with immediate replacement of leaky gaskets or connections, together with a similar inspection of floor boards and bulkhead.

H. E. SPENCER FOR M. P.

From the Ottawa Citizen which is a strong social credit paper. Editorial, Sept. 4, 1935.

Alberta cannot do better than return some of the United Farmer members like Henry Spencer and George Coote to represent the cause of social credit at Ottawa. The same could be said of Irvine, Garland, Lucas, Kennedy and Agnes MacPhail. They are men of proven integrity, worthy of a renewed vote of confidence by an electorate where social credit is the most urgent demand. Furthermore the experience of fourteen years in parliament should be of immense value when monetary reform has to be taken up by the next administration at Ottawa. It almost surely will be before way can be found to distribute more of the abundance from Canada's productive resources to the people of Canada as consumers.

(Issued by the authority of the Battle River U.F.A. Constituency Assn.)—Adv.

SPORT PEEPS

Interest in the World Series is heightened by the amazing record of the Chicago "Cubs" in winning 21 games in succession, and thereby nosing out the St. Louis "Cardinals" for the National League pennant.

Chicago appears to have a team of perfect balance, for offensive tactics. The pitching staff has shown remarkable skill, for in the famous 21 games only three pitchers starting a game were relieved. The batters supply the offensive features, which bring the runs that produces the score. It remains to be seen whether the Cubs can swat the sphere like Hank Greenberg and the Detroit Tigers. You will recall how helpless Hank was last year at the bat, under the magic twirling of the Dean brothers.

The coming contest between the Grays and the Chicago Fishermen is bound to be interesting. These Chicago girls have a great reputation, one of them reported as being much superior to that classy Dunlap maiden who burned the floor at the Arena with her marvelous speed. Basketball fans are bound to see some of the fastest, snappiest play at these games. Better take your knitting and run up to the city for an evening. You will enjoy it.

In the six-day bicycle race at Toronto, the "ride-to-nowhere", the seven teams at the finish showed a mileage of over 3561. Of course to do this only one man at a time is on the track. But considering the fast pace, it is a wonderful distance to cover in this leg machine.

The U.S. professional golfer won the Ryder cup, the \$15,000 magnum of the championship of the world, or maybe it is just in the domain of Uncle Sam and John Bull. This is the fifth time for such a contest, the English have won twice and now the U.S. made their third win. This international contest creates a lot of interest with evident goodwill.

No game in the world brings such remuneration to the players as boxing. For just 12 minutes work, Joe Louis and Max Baer each received \$215,000. The cheating negro evidently figured such a sum was enough to support a wife, for he got married but a couple of hours previous to the great fight.

"I always kiss the stamps on your letters because I know that your lips have touched them," said a Holden fellow to his Ryley girl.
"I am afraid you are wrong there," she replied, "I moisten the stamps on Fido's nose. It's always wet."

W. C. T. U. NOTES

The W.C.T.U. meeting for September was held at the home of Mrs. Locke last Thursday afternoon.

The devotional exercises consisted of Scripture reading with comments by the president, an inspirational prayer by the secretary, and a hymn with the treasurer as pianist.

Following the routine business a few of the annual reports left over from the last meeting were presented for approval.

These reports showed that the Evangelistic Department had been well sustained; not only a devotional period marked the opening of every meeting, but the local superintendent had lent herself to other evangelistic services, and as joining in group meetings, etc. Mrs. Osterhout had also had charge of systematic giving, conducting it by collections at each meeting and passing on to other organizations of a devout character the splendid message received from the Provincial Superintendent of that department.

Mrs. Locke gave a good report of earnest work done in the field of "Legislation" and recalled that in the department of medical temperance special study had been taken up re alcohol being not a stimulant but a narcotic. An effort had been made to popularize anti-war songs sent out by the Provincial Superintendent of Peace and Arbitration.

The secretary's report for the year was of higher character and was indeed heartening.

The treasurer's audited books showed all accounts met and a small balance on hand.

Superintendents appointed for the coming year were:
Evangelistic—Mrs. Osterhout.
Sunday School—Mrs. Locke.
Social Hygiene—Mrs. Parke.
Travellers' Aid—Mrs. Arnold.
Systematic Giving—Mrs. Osterhout.
Legislation and Petition—Mrs. Locke.

Press—Mrs. Parke.
Adjournment was followed by a very prettily served lunch and a social half hour, which was augmented by the presence of two visitors.

The first time a Scotchman used the free air at the garage, he blew out all four tires.

UNITED CHURCH NOTES

Two Boys' Groups were organized on Tuesday evening, October 1st, and the following officers elected:

Junior Group of Explorers: Chief Explorer, Jimmy Sonoff; Recorder, Ted Kemp; Treasurer, Max Webber.

Senior Group of Trail Rangers: Chief Ranger, Bob Charter; Sub-chief, Bob Simmerman; Tally, Philip Charter; Cache, Harry Lattin.

Committees were appointed and plans made for future meetings which will be held on Tuesday evenings—Junior Group at 7 p.m. and Seniors at 8.15 p.m.

Following business games were played until closing time. Messrs. S. Johnson and E. F. Kemp who acted as leaders found the boys eager and responsive, and are confident that both groups will do their best to live up to the four-fold ideal: 1, to seek Truth; 2, to cherish health; 3, to love God; 4, to help others, based on Luke 2:52—"And Jesus increased in wisdom and stature and in favour with God and man."

Members and friends of the Irma congregation are asked to take special note that commencing next Sunday, October 6th, the time of service will be 7.30 p.m.

Word has just been received that a Young People's Rally of the Walnwright Presbytery will be held in Viking at the United church hall on Friday, October 11th. Supper at 6.30 p.m. Picnic site. Visiting groups are asked to bring baskets. Evening session at 8 p.m. Address by J. McClary, Edmonton, a—"Young People's Share in Building a New World"; b—"Explanation of Young People's Program for the Coming Year"; c—"There will also be a singing and other musical items. It is hoped that a group from Irma will attend this gathering. Young people of 18 years or over who are interested, please see the minister.

Services for Sunday, October 6th: Paschendale, 11 a.m.; Roseberry, 3 p.m.; Irma, 7.30 p.m. The Sacrament of the Lord's Supper will be administered following the evening service in the Irma church. "This Do in Remembrance of Me".

Wheat Board Street Prices

Wheat board street list prices for wheat sold by the lead in elevators. These prices apply at Irma:

No. 1 Hard	71c
No. 1 Northern	69 1/2c
No. 2 Northern	67c
No. 3 Northern	68c
No. 4 Northern	57c
No. 5	50c
No. 6	43c
Feed	31c

All elevators are agents of the Wheat Board and will buy wheat for the wheat board.

Consult any elevator agent for further information on the selling of wheat to the Wheat Board.—News article contributed by U.G.G. Ltd.

The World In Danger

As week succeeds week the possibilities of war between Italy and Ethiopia grow nearer to certainty and the situation becomes fraught with alarming menace, not merely to the two countries involved but to other countries and possibly the whole civilized world.

With the Italian representatives rejecting, one after another, proposals which are being made almost daily by committees of the League of Nations and interested powers in the hope of averting an outbreak of hostilities, and Emperor Haile Selassie refusing to accept any compromise which would result in the surrender of his kingdom, the situation becomes more and more gloomy, and the gloom deepens with the active preparations which are being prosecuted by Mussolini and the belligerence with which he is whipping his countrymen into a warlike attitude.

Statements of the leading nations of the world and international authorities appear to be in complete accord with the general consensus of world opinion that such a conflict would not be confined to Italy and Ethiopia, but that other nations would be dragged into the fray and that it is even likely to lead to a general conflagration which would result in misery and suffering to millions and a loss of life and property on an even greater scale than the Great War of 1914-18.

Indeed, there are authorities who see in the present situation a potential destruction of civilization itself. This view is supported by the Committee on International Law of the Canadian Bar Association, which in a report to the Canadian Bar Association convention in Winnipeg recently spoke of "the consequences to the world and Canada of an actual resort to arms" as probably "catastrophic in the sense that it may include the destruction or profound modification of many of the institutions upon which civilization is based."

Again in the same report, the committee dealt with the conduct of Italy as indicating that government's unwillingness to accept decisions of the Council of the League of Nations, of which she is a member, in the following words:

"If that attitude persists the world may be faced with a complete breakdown of the system of public international order which was supposed to have been permanently established by the sacrifices of the years 1914 to 1918."

"The question is whether or not the peoples of the world will permit this by failure to agree on united action or whether, by united action, they will, as they undoubtedly can, insist upon the observance of the public law upon which the continuance of our present civilization may depend."

The statement that the peoples of the world can avoid this catastrophe by united action refers to the powers which the member countries of the League vested in themselves when they approved Article 16 of the covenants, to which all members have subscribed, agreeing to impose financial and economic sanctions as a punitive measure against any member who breaks the covenants and commits an act of aggression against any other country.

In view of the menace of the situation the importance of these powers become paramount. They are contained in the first and third paragraphs of Article 16 and read as follows:

"1. Should any Member of the League resort to war in disregard of its covenants under Articles 12, 13 and 15, it shall, ipso facto, be deemed to have committed an act of war against all other members of the League, which hereby undertake immediately to subject it to the severance of all trade relations, the prohibition of all intercourse between their nationals and nationals of the covenant-breaking State, and the prevention of all financial, commercial or personal intercourse between the nationals of the covenant-breaking State and the nationals of any other State, whether a Member of the League or not."

"3. The Members of the League agree, further, that they will mutually support one another in the financial and economic measures which are taken under this Article, in order to minimize the loss and inconvenience resulting from the above measures, and that they will mutually support one another in resisting any special measures aimed at one of their number by the covenant-breaking State, and that they will take the necessary steps to afford passage through territory to the forces of any Members of the League which are co-operating to protect the covenants of the League."

It is not perhaps generally known that the onus of deciding whether an act of aggression or incident is to be construed as "an act of war" within the meaning of the covenants is left with each individual member to decide. A clause was drafted some years ago vesting the decision with the Council but this has never been ratified by the League.

However, once a member has decided that some act or incident is an "act of war" it has no alternative, under the covenants, but to proceed with the measures outlined in Article 16. Otherwise, that country has itself violated the covenants.

With the onus of interpretation of an "act of war" left upon each individual member, the importance of the general public being fully posted on events as they transpire, can readily be understood, as in the final analysis, it is the people of each country involved who are in the position by their influence, to decide what part their country shall play in the efforts to avert a major catastrophe.

Huge Boulder Slide

500 Tons Of Rock Breaks Loose At Niagara Falls

With an thundering roar, 500 tons of rock broke loose from the cliff on the American side below the lower bridge at Niagara Falls, at a point where 200 tons fell last April.

Huge boulders and shale were piled high on the tracks of the International Railway gorge line, and traffic was suspended. The railway tracks were lifted from the roadbed and pushed to the brink of the gorge. One pole carrying power lines was moved by the avalanche of rock and sand.

Officials stated it would take considerable time to clear the railway track of the present fall.

Caked Udder Cleared

Experienced dairymen and Minors' particularly good for treating caked udder, hump, bruise, etc. in the bottom in stable and house. 21

Completes Bird Survey

Northwest Territories Good Breeding Place States U.S. Biologist

Completing a two-month survey of nesting places of migratory waterfowl in the Northwest Territories and northern Alberta, L. J. Goldman and C. E. Gillham of the United States biological survey, Washington, D.C., arrived at Edmonton by aeroplane from Fort Resolution.

Mr. Gillham, who lives at Albuquerque, N.M., expressed himself as very favorably impressed with the extent and possibilities of the north country as a breeding area for waterfowl, but explained he was unable to release the result of his survey until he had reported to his government.

Nesting places of duck and geese on the various lakes as far north as Fort Resolution were surveyed.

Women Like Combines

We'll wager the farmers' wives are glad that threshing is over. At the Jess Denton farm in Alma, Kansas, there were 31 men for dinner and 27 for supper, while at another farm near where one of the big combines was used, three men harvested 165 acres in a day. That is one place where the machine lessens the work for the women. 2117

A Great Astronomer

Dr. Anna Cannon Has Classified Over 400,000 Stars

That astronomy is not so exact a science that the average man would not be interested were information readily available, is the opinion of Dr. Anna Cannon, of Harvard, who was in Toronto as a delegate to the American Astronomical Society's convention.

For 50 years Dr. Cannon has been gazing through telescopes and the mystery of the heavens has been a thrill for her as ever. Dr. Cannon is the most famous woman astronomer in the world, and she has shared with Madame Curie of France and others equally famous the honor of receiving the Ellet Richards' prize for outstanding work by women in research.

She was the last recipient of the prize, which was founded to encourage women to study science. But because it was felt women no longer needed encouragement to enter, it was discontinued. Dr. Cannon has continued it, however, for women in astronomy. It is called after her now and it goes to women astronomers.

The prize was given Dr. Cannon for classification of stars according to their spectra. She has classified over 400,000. Harvard is now a mecca for astronomers all over the world who seek astronomical observations of spectra.

An Intricate Problem

Joining Of Steel Plates On Liner Queen Mary Requires Study

Construction of the new Cunard White Star super liner Queen Mary has been complicated by reason of the fact that no two of her steel plates are exactly the same, according to reports from the shipyard at Clydebank. Most of the plates are curved, and many of them are more than 36 feet long, 6 feet wide and more than an inch thick.

The joining of the plate so that rivets will join pairs exactly with the corresponding hole is an intricate problem, and more than 100,000 such pairs of holes must be made. Each plate must overlap at least six others adjoining it, creating a problem of arrangement that has required the study of a large engineering staff.

A large half-model of the ship has been laid out on a loft floor at the shipyard, furnishing an accurate picture of the successive rows of plates for a laboratory for the study of the details of construction which are carried out on a larger scale on the ship itself.—New York Times.

Greatest Russian Scientist

Has Done Much To Extend Study Of Nervous System

Both Tsarist and Bolshevik Governments have delighted to honor the great Russian scientist, Prof. Ivan Pavlov, says the News of the World. No one living has done more to extend the study of the nervous system of men and animals, and particularly knowledge of the connection between brain and digestion. He was awarded the Nobel Prize for this work as long ago as 1904. Last year, when he was 85, the Soviet Government paid him \$10,000 on equipping a laboratory for him. It now pays the old man, who was the son of a poor village priest, \$2,000 a year, and according to H. G. Wells, he is the only man who dare answer Stalin back.

New Variety Of Dahlia

A Siamese-twin dahlia, which may be the forerunner of a new variety of this autumn flower, was displayed at Victoria recently. The freak bloom was grown by Mrs. W. G. Gordon of Sooke, B.C. It is two flowers joined together at the calyx. The dahlia is of the pompon variety and the back-to-back flowers almost form a solid ball of pink petals. Plant experts termed it a queer aberration of nature.

Village Needs Pied Piper

Fifty rats a night are being killed in the village of Chilton, England. All the men have enlisted into an anti-rat army to combat the ravages of the rodents, which have laid siege to one farm and have become a plague.—So far the rats have won.

To help teach children music a resident of Portland, Ore., has invented a plate painted with a staff to which magnet backed paper notes can be fastened.

Gas Test Well

Great Activity Shown In Hudson Bay Junction Territory

Amalgamated Oils Ltd. brought in the fourth gas test well on the Kakwa structure recently. The flow was encountered at 275 feet, the same level at which gas was found in other wells, says a report from Hudson Bay Junction.

The four holes have been drilled largely with a view to securing geological data on the structure, which is very large. A test for oil somewhere in the Piekie hills is now considered justified.

It was stated unofficially that the Senator Oil and Gas Development Company, Ottawa, intended shipping a rig to Hudson Bay Junction and drilling for oil on the structure where the Trail Blazer Company put down a hole last year. This structure is near Hudson Bay Junction and quite distinct from the Kakwa structure, 25 miles distant.

Rare Animal From Africa

Okapi In London Zoo Looks Like Miniature Giraffe

Leo, the Okapi, one of the rarest animals in the world, has taken a prominent place in London Zoo Society.

Leo comes from Africa and is the talk of the town. An Okapi (O-kapi, with the accent on the second syllable), includes in equal proportions the characteristics of the giraffe, the deer and the zebra. He looks like a miniature giraffe.

One of the shyest of animals, the Okapi has been hunted almost to the point of extinction by the natives of the Lurti forest with their deadly blow-darts.

Hurts Coal Industry

Bitter Complaint Against Natural Gas Competition In Alberta

Use of natural gas in Edmonton last year deprived mines of \$1,000,000 for 350,000 tons of coal, Sir Montague Barlow, eminent British authority on coalfields, was told as he opened his investigation of Alberta's coal industry. Bitter complaint against natural gas competition was voiced by Mayne Ross, counsel for 10 coal companies. Mr. Ross also informed Sir Montague that trick and bus competition to railways has reduced the market for steam coal.

FASHION FANCIES

LITTLE DAUGHTER FOLLOWS "SUIT" BECAUSE MUMMY HAS DECIDED IT'S A SUIT SEASON

By Ellen Worth

Here she is showing just how attractive and practical her new model can be.

Originally it was carried out in lightweight woolen in red and brown mixture. The boxy jacket was plain brown wool. The jacket has enough warmth for fall days. And another nice thing about it is that it gives extra warmth for winter days.

Wool jersey dress with the jacket of velvet is another attractive scheme. Style No. 675 is designed for sizes 8, 10, 12 and 14 years. Size 8 requires 2 1/2 yards of 39-inch material with 1 yard of 5/8-inch ribbon for dress and 1 1/2 yards of 38-inch material for jacket.

Patterns 10c each. Address mail orders to: Pattern Department, Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg. Let the new Fall and Winter Fashion Magazine assist you in assembling your family's fall clothes. There are designs for every type and every occasion. And you know that one of our perfect-fitting patterns is obtainable for every design illustrated. Don't delay! Send for your copy today!

Sounds Like Good Scheme

Husbands Left Alone During Holiday Will Be Looked After

A scheme is being mooted in Old London to meet the needs of that unfortunate section of humanity—the husbands whose better halves have gone on ahead on their holidays, or who are staying another fortnight longer. Most husbands have this experience now and again. They fix up meals somehow, make the bed just before friend wife comes back, and use up all the socks in the drawer pending her return to darn them.

The idea is that a catering firm will provide breakfast and evening dinner, put it in the refrigerator overnight, charging so much a week for the service. Hubby just leaves a note suggesting what he would like and the thing is done. Thermos containers will keep the food warm. And what's more the company will do the dish washing.

Another branch of the service is valeting. Socks are to be left in a bag, collected, and returned next day, washed and mended.

Perhaps wifery may not like this idea. One of the greatest satisfactions she gets out of her holiday is the thought that hubby is putting up with so much discomfort that he will realize how much he depends upon her and will appreciate her all the more when she comes back.—St. Thomas Times-Journal.

Land Has Disappeared

No Trace Can Be Found Of Property In Esquimalt

H. Sellar of San Francisco was surprised recently to find a lot on which he had been paying taxes for over 50 years had disappeared.

Seller went to Victoria, B.C., to secure a title of a piece of property in Esquimalt, left to him by his father. He visited the land registry office and real estate operators both there and in Esquimalt, but could find no trace of the property.

His father came to the coast about 60 years ago, and, becoming interested in Victoria real estate, purchased the land which he left to his son on his death. The son was asked to hold the property as a drydock was to be built at Esquimalt which would increase its value. He let the land go at a tax sale and bought it back again.

The only explanation he can give now is that the property must be under water. It is said the matter was settled by the payment by the municipality of the amount paid for the land by Sellers at the tax sale.

Huge Cliff Demolished

Blasting In Scotland Dislodges Million Tons Of Granite

One of the greatest blasting operations in Scotland was successful recently when a granite cliff 500 feet high and stretching 400 feet across the face of Ben Durnich, near Bonawe, was "demolished" by gunpowder. A signal was flagged from a tiny island in Loch Eive. At this a man crouching on the mainland, under a protective rock ledge in a forest 500 yards away, pushed down the lever of a dynamo, and the cliff tumbled into a myriad fragments. Powder fumes and granite dust rose in a cloud 2,000 feet high. In that second there was crowning triumph for men who had planned for the last four years to destroy the cliff, and by the touch of a lever there had been gained for industry 1,000,000 tons of granite. The success of the blasting, which cost \$20,000 to carry out, means that 400 quarries will be given work for six years.

Plenty Left

The play had reached its climax. There were tears in the eyes of the audience, for the villain had just kidnapped the heroine. The hero then came on the stage to find his sweetheart gone. Clutching hold of the table with trembling hands he cried out loudly: "She is gone! She is gone! What is left for me?"

Somewhere in "the gods" the shrill voice of the new sales boy cried: "Peanuts, chewing-gum, chocolate and ice-cream!"

Bird Was Artistic

At Egginton Rectory, Derbyshire, a small stream flows through the garden; on the bank among the reeds and lilies a moorhen built her nest; morning after morning the edge of the nest was decorated with sprays of buttercups gathered from the adjoining meadow.

Spectators Were Scared

An artist's zeal brought a police car and ambulance and halted work in a Boston office building. Perched high on a roof, painting a skyscraper view of the waterfront, the young artist did not know that office workers called police to halt his "suicide."

Now's the Day and Now's the Hour

With times improving, roll your owners "who has" smoked Ogden's Fine Cut in the past are crowding back to Ogden's because of the satisfying cigarettes it assures. And they are learning again that the best really costs very little. "Now's the day and now's the hour" for you, too, to get back to this favourite cigarette tobacco. And remember—"Chanticleer" or "Vogue" are mighty fine papers.

52, Poker Hands, any number, now accepted as a complete set.

OGDEN'S FINE CUT

Your Pipe Knows Ogden's Cut Plug

Dropped From The Sky

Massed Landing Of Troops Practised In Military Manoeuvres

Soviet military strategists dropped an army from the sky recently as they practiced their latest war manoeuvres—mass landing of fully-equipped troops with parachutes. Bearing rifles and sub-machine guns, the jumpers landed behind "enemy" lines, formed ranks quickly and bore down upon an opposing airborne.

Whole regiments, landing from the skies, succeeded in capturing the airbase, but later came to theatrical grief. When they used the airbase as a base from which to advance overland to attack the main "enemy" forces from the rear, they were met by a quickly mobilized defence force which, with the aid of tanks and armored trains, "annihilated" them.

Advice For Everyone

Doctor Says People With Colds Should Be Isolated

If you have a cold, go home and isolate yourself. This is the advice of Dr. Gordon F. Jackson, M.O.H., of Toronto, who remarks that people do not consider colds with sufficient seriousness. The common cold, he points out, is responsible for greater financial loss to business than any other single disease.

"The common cold is highly communicable," he says. "And the change from the nice weather to the cold nights we now have, lowers the average individual's resistance."

For Baby's sake...

From the St. Vincent Arrowroot Flour down to the sugar and salt used in making Christie's Arrowroot Biscuits... all the ingredients are of very finest quality and scrupulously pure. They're safe for your baby.

SYNOPSIS

Nancy Nelson is a sub-jab, a gay, irresponsible girl of nineteen, with no care beyond the choice of her costume for her coming-out party. Suddenly, in the market, crash, her indulgent father loses all he had, and his family is faced with the necessity of a simpler method of living. At this juncture, a letter is received from an eccentric relative in Colorado, who offers the girl a home on what seems to be impossible conditions.

After much consideration Cousin Columbine's offer is accepted, and Nancy and Jack arrive at Pine Ridge. Nancy sees nothing, afternoon, to climb to the top of a hill so as to obtain a view of the surrounding landscape and misses the path Aurora Tubbs had told her to follow. A truck comes along the road, driven by Matthew Adams, and she asks him which way to go. They ascend the hill, look around, and then go on to Cousin Columbine's. There Mary Adam tells Nancy that her brother Luke has broken his leg, and that Jack Nelson has been killed. Jack away, Nancy finds that she is lonesome, and having no books to read, the idea of a circulating public library at Pine Ridge seems a good one, and Nancy writes home to get her parents to send the books. She could spare and all they could induce others to let them have.

Nancy and Matthew Adams go Christmas shopping in a neighboring town. On their return to Pine Ridge, Nancy is amazed to see the Columbine residence all lit up, and asks Matthew if he knows why. He said: Let's go in and see. Then Nancy learns that she is having her debut, but in a different setting than had been planned for her in Boston.

Nancy's parents and friends gave their liberal support to her request for books, and all they could induce in due course. Father Adam painted a sign for the library, and the Adams boys worked on the shelves for the books and decorations to make the room look presentable.

Jack Nelson, Matthew Adams, and Nancy go to the picnic at which their uncle for the ride, and after Nancy and Jack leave for home, they are caught in a blizzard.

Now Go On With The Story

CHAPTER XVII

The ride to Prairie Ranch had been a jolly one, and a new experience to the young Nelsons. "Uncle Tom and Aunt Emily" welcomed them warmly, and suggested that they stay a day or two, so Mark would be able to accompany them home; but Jack demurred.

"With both Matt and Mark away, Mr. Adam needs me," he explained, "and what's more, I think we'd better start right back if we're to go alone. Soon as Mark's better we'll be glad of the chance to come and get him; but really, I feel easier to go back to-day."

"He's right, Matthew," commended Uncle Tom. "It's not quite fair for me to steal two of your father's sons and his third man as well! And as Jack says, it's better for them to start soon and take their time. Run up and say a word to Mark, you two."

"I'll Tell Anybody Gin Pills are Good"

—writes a Lunenburg, N.S., man who had suffered from Rheumatism. He further states: "I cannot praise Gin Pills enough. After using them I am now able to go around without a cane."

If your kidneys are not efficiently disposing of the waste matter in your system, excessive acidity may develop, resulting in painful joints, sciatica, lumbago. At the first sign of kidney trouble take

GIN PILLS

FOR THE KIDNEYS

it. We—we can't miss it. Do you understand?"

Nancy understood only too well. There followed a mile or so when neither spoke. Twice Jack got out to wipe the glass, while his sister, staring into the wind-swept space, fought terror. Snow was descending fast and furiously now. Indeed, as they kept on doggedly it seemed incredible that this was the same bare road they had traversed so short a time before with friendly sunlight dappling the plains of every side. It might, thought Nancy, have been snowing here for hours and hours. Could it be possible that they were off the road? Straining her eyes into the drifting white, watching in desperation for the wayside mail box, visions of frozen cattle rose up before her, and the girls heart thudded.

At last Jack said, not looking at his sister: "We've missed that ranch, Nancy. It can't have been as far as this. What say we turn back now and try to reach the schoolhouse? The wind would be behind us anyway; and as it is I can't see four feet ahead. It looks to me as if our best chance was to—"

The words were silenced by a cry from Nancy, a cry of warning that came too late. Jack jammed on the brakes so suddenly that his sister was thrown forward against the windshield just as the car collided with the engine of a big school bus, which stood, its back wheels resting in a snow-filled gully as it extended crazily across the road.

CHAPTER XVIII

As Nancy righted herself again, her eyes met Jack's, a glance of stark despair passing between them. "I'm afraid that crash has finished this old car," he told her, then added: "Why, Nancy, I think that bus is full of children."

"Hush, there!" came a voice almost at his elbow. "Had a sketch up, didn't you? Did you meet Clem?" Jack turned to see a boy of perhaps eleven, standing amid the swirling snow. "Skip back into that bus, kid," he shouted, "we're coming too."

He was already out, stretching a hand toward Nancy, "Did they get the right way to the door of the stalled bus, the youngster called over his shoulder: 'Watch where you go there! Don't step into that deep rut, Miss—you gotta jump it.'"

A worried wrinkle appeared between Jack's eyes. "Maybe Cousin Columbine was right, and we're in for a storm," Nancy laughed.

"Lost on the prairie in a blizzard on the twenty-sixth of March! It would be some story to tell the folks back home!"

Jack said, his eyes following the cloud: "Don't tempt Providence, Sis. That cloud is turning ink; and blizzards on these plains are something awful, they come so suddenly. Mr. Adam told me about a time—"

A gust of wind was on them before Jack finished speaking. Big balls of tumbling snow scurried across the prairie; and clouds of dust obliterated the road.

"Perhaps we'd better turn and go back," suggested Nancy, ducking her head against the particles of dust. "Cousin Columbine insisted we mustn't start in any sort of storm, you know, and—" Her voice rose in alarm, "and it's really snowing! It's beginning to snow hard!"

The boy leaned forward, scanning a sky that grew darker with incredible rapidity.

"How far back did we pass that schoolhouse?" His voice, Nancy noticed, was tense, unnatural. "I don't want to scare you, Sis, but this looks bad to me. If we could reach the school I'd take a chance at waiting there until the worst is over. What do you say?"

"I say we keep right on to the first ranch. That school was six or eight miles back; and when we passed I noticed particularly that the bus had left. Perhaps they closed at noon to-day."

A stinging flurry of snow was on them now, cutting across their faces like a whip. For a moment it took Jack's breath away; then he replied: "I guess you're right. There was a ranch somewhere along here. I remember seeing the gate and mail box. Help me into this jacket, will you? I don't want to stop the car. Gosh! Nancy, we're headed straight into the storm. That's it!" (as she struggled to get his arm into a sleeve), "don't bother about the other. Get into your own coat quick—"

or wrap it round you. Look at this snow! The windshield's covered already. I'll have to get out and wipe it off."

"Are there any aids' curtains in this old car?" cried Nancy as they started on after a short delay.

Jack shook his head as he bent tensely above the wheel.

"Darned if I know, and you couldn't put 'em on in this wind any way. Keep your eyes peeled for that mail box, Nancy. We mustn't miss

ones, however, grow noticeably quiet as time passed, trying to peer out of the snow-covered windows, and speaking together in low voices.

At last Jack and Tom Osgood started some wrestling matches at the rear of the bus; while the older girls roused themselves in an effort to keep the others occupied. They danced, jumped up and down, and did gymnastics; but despite this exercise they were growing colder every minute, and when during some roughhouse, a small boy's elbow went through a pane of glass, a cry of dismay arose from one and all.

It was then that Tom Osgood had an inspiration. Stored under the back seat and carried for just such emergencies, were canned food and a small, portable stove.

"I'll say we were pretty dumb not to think of 'em before," he observed disgustedly, "but we've never had a chance to use 'em, and I guess every one forgot." He had been rummaging about on his hands and knees, and now stood up, a bewildered expression on his many little face.

"Why they're not here! Not anywhere! We've always carried 'em, and extra blankets too. Say! I bet I know what happened. Joe took 'em out when he cleaned the bus this morning, and forgot to put 'em back when he had that pain. He always sets 'em in the harness closet out of the dust; and maybe Clem s'posed they was right here, or p'raps he didn't know they'd ought to be here. Gee! I'm hungry, and some o' that cold soup would taste good."

There followed another fruitless search, the children watching with strained, unchildlike faces.

"Don't cry, kiddie," said Jack, as a small girl burst into frightened tears. "I'm going to make a stove out of this milk can. We'll soon be opening windows to cool off!"

Nancy forced a smile at her brother's attempt at cheer, and lifting the crying child onto her lap, wrapped her coat about the small, cold legs. The bus was shaking with each gust of wind, and though every window was thick with frost, she knew the storm had increased in fury.

(To Be Continued)

One Business Booming

From its inception, Synapwood With Order For Jew's Harps... "Industrial Britain" informs us that Birmingham, the only city in the world where Jew's Harps are manufactured, is experiencing such a boom in this respect that prospective players all over the world, especially in America, are obliged to await delivery. The city is due to a lack of skilled tone setters, who have to be trained for several years before they are proficient. The setters are responsible for the adjustment of the metal strip that vibrates to produce the sound, and if this strip is the merest fraction of an inch out of adjustment the tone of the harp is ruined. One firm in Birmingham is producing 100,000 harps a week, and has enough orders in hand to keep the factory busy for three months. The head of this firm has just returned from a business trip in the United States, where Jew's Harp bands are popular, with one order for nearly 150,000 instruments.—Brookville Recorder and Times.

Would Join British Empire

You have heard of districts in Europe inhabited by Germans who want to join Germany. There is also one country in Europe where people want to join Britain, though they are not British. In five years Iceland will reconsider her present association with Denmark. A large and increasing element wants to seek admission to the British Empire. It will not happen, of course. But how significant that it should be suggested.—London Sunday Express.

Enjoy It Anyway

When shoe repairers hold a picnic they usually enter their merit with awl and their heart and sole.—Kitchener Record.

And they enjoy themselves if they are on their uppers.—Chatham News.

And as long as it lasts.—Montreal Star.

But if anybody asks if they had a good time they reply, "Oh, just saw new." They never saw enthusiastic.—London Advertiser.

Some Queer Laws

New York's statute books contain many don'ts. Among these are statutes prohibiting riding a bicycle with hands off the handlebars, flying kites in city streets, and firing a cannon in the city except with the mayor's permission, the cannon to be no larger than a four-pounder.

Formosa's recent earthquake

was the most disastrous since the quake of 1906 which cost nearly 1,500 lives.

Save "LEFT-OVERS" with **Simple Lord's Presto Pack Tissue**

MORE CONVENIENT TO USE....

Just hang a package in your kitchen. You'll be delighted with its convenience for, with one hand, you can easily extract a single sheet at a time leaving the other hand free to hold the "left-over" being wrapped.

Warehouses At Calgary, Edmonton, Regina and Winnipeg

A FASCINATING FLAVOR

A Rare Instrument

Mathematical Rqd Invented In The Year 1617

One sees queer things in the advertisement columns of the London newspapers as being for sale. Some of these are simple, some are mystifying. In the latter category most people placed an item which appeared the other day. The advertiser announced that he wanted to sell a set of "Napier's Bones."

No doubt to the mind's eye of the majority of folk who read it there appeared a vision of a wired skeleton such as anatomical museums and medical textbooks show. Or the remains of some famous Napier or other which had been preserved something like those of Jeremy Bentham, now in a great London hospital. But only the mathematicians (and not all of them) might be expected to know anything of Napier and his bones.

The bones are a set of small rods inscribed with figures. By means of these things multiplication, division and all sorts of mathematical gymnastics may be performed by the initiate. The method of using them was invented, and explained in a treatise, by John Napier, of Edinburgh, in the year 1617, and they came to be known as "Napier's Bones."

Very few sets are known to be in existence.—Vancouver Province.

International Tourist Bureau

Plan To Link Up Two Provinces And Two States

A proposal to link sections of two provinces and two states into an organization promoting tourist attractions of the provinces was made by G. P. C. Pousset, head of the Winnipeg Tourist and Convention Bureau.

Following Pousset's suggestions before a meeting of civic envoys at Detroit Lakes, Minn., a committee was appointed to investigate the plan that would organize northwestern Ontario, Manitoba, eastern North Dakota and northern Minnesota.

The territory would be designated as the "circle tour" and would extend from Winnipeg to Kenora, Ont. to Fort Frances, Ont., through north-eastern Minnesota to Detroit Lakes, Alexandria, the Twin Cities, Fargo, N.D., and then north to Grand Forks, Crookston, and back to Winnipeg.

World Speed Record

Record For Land Plane Of 347 Miles Per Hour

W. H. Hitchman, of the National Aeronautics Association, announced that the Federation of Aeronautique Internationale in Paris, will be asked to credit Howard Hughes, wealthy film producer, with a world speed record for land planes of 347 miles an hour.

This speed was attained by Hughes in a series of tests near Santa Ana, Calif., in his 14-cylinder, 1,000 horsepower monoplane.

The present record of 314.319 miles an hour was set by Raymond Delmotte, of France, in 1934.

The population of the world has been estimated at two billions by the Statistical Institute of the League of Nations.

Mountain sheep are almost extinct in Washington and Oregon now.

Little Helps For This Week

And when ye stand praying, forgive if ye have sinned against any, that your Father which is in heaven may forgive you your trespasses. But if ye do not forgive, neither will your Father which is in heaven forgive your trespasses. Mark 11:25-26.

'Tis not enough to mourn your sin.

'Tis but one step to heaven; When you are kind to others—

You know yourself forgiven.

There is nothing to do with your fellow men but to love them, to contemplate their virtues with admiration, their faults with pity and forbearance, and their injuries with forgiveness. To hate your adversary will not help you; nothing within the compass of the universe will help you, but to love him. How many a solitary place would be made glad if love were there, how many a dark dwelling would be full of light.

Viewpoint Of Youth

Ontario Boys Suggested Relief Board Might Purchase Rugby Balls

The rugby season is in with us.

In a recent week some boys at an Ontario high school wanted to practice the great autumn sport. Last year's rugby balls had disappeared. The school board had decided to re-trench and not purchase any new ones out of public funds. Some new ones were being provided out of the students' own athletic funds but they were not available.

What happened? A group of boys approached the athletic teacher to ask if a ball or two might not be secured from re-trench funds.

The rest of the column could doubtless be filled amplifying this little sidelight on a young Canadian viewpoint about the Dominion's biggest single business. Suffice to reflect how deeply its roots are sinking, when fifteen-year-old Canadian lads think relief rolls are synonymous with rugby balls.—Financial Post.

Men's Fleece Combinations

Standard weight Men's Fleece Combinations, made with 2-ply fleece on a good weight jersey knit backing yarn. Mottled shade. All sizes. Special..... **1.29**

Heavy Fleece Combinations

This is one of the best garments from the largest fleece maker. A heavy 4-ply fleece on a strong back yarn. All seams are flat laid, real winter weight. Exceptionally well cut and made up. Probably the largest fleece seller. All sizes **1.69**

Men's 'Polar' Fleece Combinations

This is the heaviest fleece garment we know of. This garment is for the man wanting extra weight. Extra heavy back yarn with a very deep warm fleece of combined wool and cotton, which assures you warmth and rapid absorption of perspiration. All sizes **2.00**

Boys Fleece Combinations

Penman's Nu-cut Fleece for boys. A heavy weight fleece cut in the new one-button surplus front. This garment for boys is much better than the standard weight fleece and is well worth the few cents extra you put in it. Special **1.00**

Boys' 3200

Stanfield's Combinations

This "Stanfield" Combination for boys was a great favorite last year. Knit in elastic spring needle rib from long staple yarns, it is warm without bulk. Very neat fitting and easy to launder. All sizes **1.50**

Stanfield's Men's Combinations

Not much need for us to say anything of this nationally-known line of famous underwear. It is known for its fit, comfort and service from coast to coast. May we supply your needs in it?

Men's Gold Label

The lightest weight in rib knit. Made from pure lambs wool up to the usual Stanfield standard. Combinations at..... **2.50**
Shirts and Drawers, per garment **1.45**

Men's Red Label

This is probably the most popular weight in Stanfield's heavy ribs. A good heavy garment of pure lambs wool, is an ideal garment for the outdoor worker. Combinations at **3.25**
Shirts and Drawers, per garment **1.85**

Men's Blue Label

This is the real heavy garment that is the choice of the man who spends most of his time out of doors. Absolutely defies zero weather and is always soft and cozy. Combinations **4.00**
Shirts and Drawers, per garment **2.25**

Women's Vests

A winter weight vest for women. Made with rayon stripe woven in long staple cotton yarns. A good serviceable garment. All sizes **39c**

STANFIELD'S
Unshrinkable
UNDERWEAR

Vest-Bloomer

You know these wonderful garments for children: Their warm quality; their neat snug fit; their wonderful wear—and easy washing quality. All sizes at special value. Vest and bloomer **59c**

Misses' Combination

A long staple yarn combination for Misses that is low in price, warm and serviceable. Knit in natural shade with a nice light fleece on the inside. Sizes from 20 to 34. Priced from **85c**

Women's Waffle Stitch Vests and Bloomers

39c

Vest and bloomers that have been decidedly popular the past two years. A weight that is heavy enough to be warm and makes its largest appeal because of its very snug, neat fit. Flesh color **39c**

Men's 3200

Stanfield's Combinations

A medium weight garment for the man who likes something neat and close fitting. Easy to wash and a snug fitter. All sizes. Combinations **2.50**

Main Street

Mr. J. W. Graydon has taken over the Massey-Harris agency here.

Mr. and Mrs. Kenneth Edgar moved to Edmonton on Friday, September 27th.

Mr. and Mrs. Tripp are planning to motor out to the coast this fall to spend the winter.

Mr. and Mrs. Beacock brought their baby home from the Vermilion hospital last Sunday.

Mr. H. C. Raine of the Edmonton Bulletin was in town on business on Wednesday, October 2nd.

Miss B. E. Anderson of Wainwright is at present engaged as stenographer in the Bank of Montreal at Irma.

The Irma Ladies' Aid will meet at the home of Mrs. Locke on Thursday afternoon, October 10th, at 3 o'clock.

Professor F. C. Elford, who is Dominion Poultry Husbandman at Ottawa, visited his nephew, Mr. E. L. Elford, in Irma on Tuesday, September 24th.

Mr. Jack Bishop is still confined to his home on account of throat trouble. Mr. Ralph Bond of Butte, Alta., is filling Jack's position in the Northern elevator.

Mr. A. C. Carbol and family are moving into Mrs. Schenck's house this week and Mr. Johnny Hines, of Wainwright, the Rawleigh man, is moving into the house Mr. Carbol is vacating.

At a meeting of the Irma high school board held last Saturday evening, September 28th, the proposition to provide instruction for grade XII students was voted down for the present.

Mr. James Morrison, of Hardisty, is moving into Henry Kasten's house on King street as soon as the threshing is finished. We understand Mr. Morrison will be the caretaker of the rink here this winter.

The postponed meeting of the Alma Maier and Roseberry Ladies' Aid will be held on Wednesday, October 9th, at the home of Mrs. W. Anderson. A full attendance is urged as the date for bazaar and supper will be decided on, also committees for same to be appointed.

Mr. and Mrs. A. C. Carbol and Mr. and Mrs. A. B. Peterson motored to Heath last Sunday to visit Mr. and Mrs. Bouck and Mrs. Frank Peterson who is making her home with her daughter, Mrs. Bouck. Mrs. Peterson was not as well as usual at the time of this visit.

Messrs. Bert and Art Long received word from Peterborough, Ont., last week saying their uncle, Mr. Harry Long, had passed away on September 21st, at Nichol's hospital. Mr. Long was well known throughout the Irma district, having homesteaded on Strawberry Plains over twenty years ago. He also owned some property in the village of Irma. It is not known just what his age was at the time of his death.

While Mr. and Mrs. Louie Larson's two children, Irene and Clara, aged four and two years respectively, were playing about their home last Monday, September 30th, they secured a quantity of strychnine which had been stored away on a shelf. They both put some of the poison in their mouths, but the older one spit it out as she did not like the taste. The younger child swallowed a considerable quantity and soon became sick. Both children were hurriedly brought in to Dr. Greenberg who rushed them to the Wainwright hospital where they received prompt attention. The older girl was returned to her home the same day but the younger one, although her condition was much improved, was left at the hospital for further attention.

CARD OF THANKS

Mr. I. Gultner and family wish to express their sincere thanks to all those who helped during the illness and at the time of the death of Mrs. Gultner, and also to all those who donated flowers for the funeral.

FOR SALE BY TENDER

One Waterman-Waterbury Heater (cost \$225.00 new). Highest or any tender not necessarily accepted. Tenders to be in the hands of secretary not later than Saturday, October 12. D. H. CURRIE, Secretary, Education Point School, Phone 512.

"This medicine will make you feel ten years younger," said a druggist at St. Cloud to an old lady patron. "Yes, but in that case what would become of my old age pension?" she asked.
